Professional Summary

Seasoned technology consultant and project manager with over two decades of experience in driving digital transformation. Specialised in AI-driven solutions, project management, and product development. Proven track record in delivering AI-based tools, including document processing and summarization systems, focused on leveraging AI technologies for business growth.

Experience

Founder & Lead Developer
Rametric | Aug 2020 - Present

- Leading the development of *Docsumm*, an AI-powered document summarization tool.
- Innovating solutions in AI document processing, data analytics, and enterprise AI strategies.
- Collaborating with partners to develop scalable, AI-based tools for knowledge extraction.

Volunteer
CSRG | Aug 2021 - Feb 2024

- Volunteered in a soup kitchen

Consultant
Self-Employed | Jan 2009 - Jan 2013

- Led product development for a social network for sports organisations.
- Managed deployment of 500 customised iPads at IMD.
- Served as interim CTO at Poken.
- Advised a large sporting goods organisation on social media strategy for the Cricket World Cup.

Senior Project Manager
CSC (UK) | Sep 2004 - Dec 2008

- Led a $50M program for BAE Systems.

- Organised a PMO for BT's $1B 21CN program.
- Managed VoIP rollout at Aviva and product management for Allder's retail system.

Project Manager/Developer
IBM | Oct 1995 - Aug 2004

- **Nokia (Finland)**: Developed an online product catalogue for their clients.
- **Anglo Irish Bank (Ireland)**: Created ad hoc support applications for the trading desk.
- **ABN-Amro (Holland)**: Developed an automated rollout system for applications across all bank offices.
- **IHS Energy (Switzerland)**: Built a system to digitise and put paper oil reports online.

Projects

Docsumm
An AI-powered document summarization tool that supports multiple file formats, including audio, PDFs, and DOCX. It extracts key points and provides concise summaries, using NLP models for efficient knowledge extraction.

- Expanded from audio transcription to include multi-format document processing.
- Integrates vector stores for similarity search and fast information retrieval.
